EDUCATION

Swami Vivekananda Institute of Science and Technology
2015 – 2019 (B. Tech in ECE) DGPA: 7.79

WORK EXPERIENCE

Wipro Ltd (Project Engineer) 2019 – Presently Working
Project Name: IFMS(Government Of Gujarat)
Description: IFMS is Integrated Financial Management System of Government of Gujarat which is a part of Finance Department of GOG.
Role and Responsibilities: As an Angular Developer, implementing Business Logic, Validations and integrating RestApis. Taken a responsibility as a Module Lead and handling a small Team, and also coordinate with Release Team for Deployment on SIT/UAT. I started as a Prototype Developer and moved to development and worked in PVU, Budget, EDP and now handling DDO Module as a Module Lead. Inside PVU, I worked on ROP sub Module, after completing this, I was moved to Budget, create a number of common, reusable and efficient code, then moved to EDP for work flow integration and then moved to DDO Module as a Module Lead. Implementing good coding practices, reusable directives, pipes, components, oops.

SKILLS

Skill	Level
